Product Category: Blend refrigerant

Product Name : R409A

a blend refrigerant of HCFC-22, HCFC-124 and HCFC-142b, a substitute for CFC12, used in refrigeration system.

Typical Properties:

Formula: $\text{CHClF}_2/\text{CF}_3\text{CHClF}/\text{CH}_3\text{CClF}_2$

Boiling Point (101.3KPa, C): -35.3

Critical Temperature (C): 109.4

Critical Pressure (KPa): 4640.9

Liquid Density (kg/m³): 1204.6

ODP: 0

GWP: 0.29

Package and Storage

disposable steel cylinder 13.6kg/30b; recyclable steel cylinder 980kg/926L. Filling coefficient is not more than 1.06kg/L, Cylinder should be stored in cool, dry and ventilated place.
