See details below:

IN THE DEODORIZATION SYSTEMS THE FOLLOWING FILTERS ARE INCLUDED

1st Filtration Stage	Grease filter with grease trap - G2
2nd Filtration Stage	Grease filter with grease trap - G2
3rd Filtration Stage	Prefilter Z-line or bag filter with grease trap - G4
4th Filtration Stage	Rigid bag filter class F8
5th Filtration Stage	Rigid bag filter class H10
6th Filtration Stage	Active carbon or alumina+active carbon filter
7th Filtration Stage (in 2 rows system)	Active carbon or alumina+active carbon filter
8th Filtration Stage	Active carbon post filter carbo pleat

NOTE: When we have 1 row of active carbon or active carbon+ alumina filter the system is manufactured in one box, when we have 2 rows the system is manufactured in two boxes.
