

ELECTRIC HEATERS

FEATURES

- Electrical resistance chromonikelinis single wire.
- Thermoasfaleia protection thermostat in series with resistance.
- Within a metal box measuring 240 x 153.
- Capacity for air filter.

APPLICATIONS

Heating fresh air inlet boxes.

Plug in box at the outlet centrifugal fan for intended to cover direct network connection.

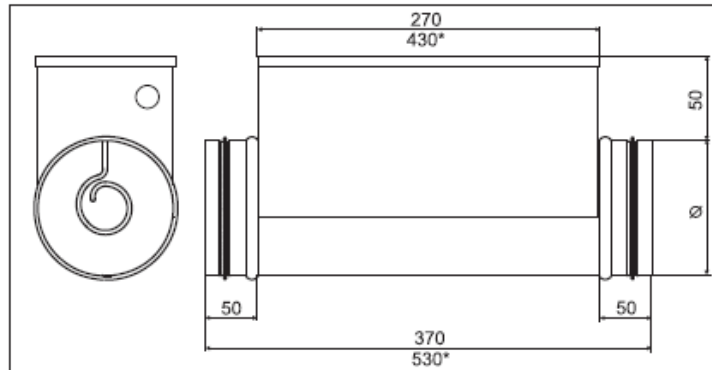

CYLINDRICAL CONDUCTOR RESISTANCE

FEATURES

- Frame of insulation material and heating elements made of INOX ASI 304.
- Contains two thermostats and safety akrokivotio with screws for easy connectivity.

APPLICATIONS

- A system of vents horizontally or vertically.

Model	Diameter mm	Voltage V	Power kW
EKA 100	100	230	1.2
EKA 125	125	230	1.8
EKA 160	160	230	2.4
EKA 200	200	380	6
EKA 250	250	380	9
EKA 315	315	380	12
EKA 400	400	380	15
